OCCUPATIONAL INDEX

An occupational index may be elaborated endlessly, by sub-dividing and cross-indexing. This index is not one of that sort. The alumni are listed in certain main groups only, with the expectation that this will be adequate for such use of this index as may be made, since in any case the biographical sketch in the body of the book will give specific information. Not all are listed here, but only those whose occupations located them in some one of the groups; and where exact classification was not possible, the nearest approximation has been made. The dagger (†) preceding a name indicates "retired" or "inactive".
